

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0013] with new paragraph [0013], shown below.

[0013] Recently systems have been developed to make browsing the Web more feasible for handheld devices. One such system, referred to as “Satchel,” was disclosed by employees of Xerox Research Center Europe. See, Mike Flynn, et al., “The Satchel System Architecture: Mobile Access to Documents and Services,” *Mobile Networks & Applications*, Vol. 5 pp. 243-258 (2000) (~~Date~~). The Satchel Browser provides the ability to browse categories for documents and also provides the ability to invoke services, such as printing, or faxing, once the document has been retrieved.
